

IBRAHIM MOHAMED

Civil Engineering Student

Personal Information

- Full Name: Ibrahim Mohamed Reda Barhom
- Phone: [+201012162395](tel:+201012162395)
- Email: ibrahim.muhmmad.reda@gmail.com
- LinkedIn: [Ibrahim Mohamed](#)
- Address: Mansoura - Dakahlia - Egypt

Summary

Civil Engineering student with strong expertise in structural drafting, and engineering design tools. Experienced in preparing structural drawings using AutoCAD, ASD, and Revit. Active member of university volunteer teams, contributing to projects, research, and community initiatives. Skilled in teamwork, problem-solving, and applying engineering concepts to real-world construction projects. Seeking opportunities to apply technical skills and collaborative experience in professional civil engineering environments.

Technical Skills

Structural & Drafting Software:

- AutoCAD (2D Drafting – Structural Layouts)
- Autodesk Structural Detailing (ASD)
- Revit Structure (Basic Modeling)
- Tekla Structures (Beginner – Currently Learning)

Engineering Knowledge:

- Structural Drawing Preparation
- Reading Construction Plans
- Reinforcement Detailing Basics
- Quantity Surveying Basics
- Concrete & Steel Structures Fundamentals
- Site Work Basics (excavation, shuttering, reinforcement)

General Software:

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint

Soft Skills

- Communication
- Teamwork
- Problem Solving
- Time Management
- Generative AI Tools

Education

Al-Azhar University – Faculty of Engineering
Civil Engineering Department
Expected Graduation: 2027 (Cohort 58)

Internship Experience

Position: Civil Engineering Intern

Location: Damietta, Al-Azhar University

Duration: 1May 2025 - 31May 2025

- Assisted in reviewing and understanding execution drawings.
- Supervised on-site work to ensure compliance with project plans.
- Participated in finishing works inspection and quality checks.
- Gained practical experience in site operations and project coordination.

Projects & Academic Work

Project Title: AI and GIS for Sustainable Road Infrastructure Using Recycled Rubber Asphalt Mixtures

Date: Sep 2025

Description:

The project was officially presented at the Innovations and Graduation Projects Forum organized by the Egyptian Engineers Syndicate and received the Second Place Award.

Courses & Certifications

- Multiple AutoCAD training courses
- Autodesk ASD beginners course
- Revit Structure Fundamentals
- Currently studying Tekla Structures & advanced Revit
- Certificate from the Egyptian Engineers Syndicate for presenting a group research project at the Innovations and Graduation Projects Forum 2025.

Teams & Memberships

- GeoMapper Team – Member (Research & Media).
- Azex Team – Member (Human Resources)

Languages

Arabic: Native

English: Very Good Command (Level B2).
